

To whom it Concerns:

Please do not replace the FM translators with Low Power FM (LPFM). Without your help, the K-LOVE and Air 1 signals, in many areas, serving hundreds of thousands of listeners, could be replaced by an LPFM which may not have the same family-friendly programming my family and I have come to enjoy. You know that K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across America. Please, help preserve this service that we value so much.

Thank you,
Kathy Lumpkin
